

Since 2007, APEX has produced lightweight wheels with extreme durability and unprecedented value for the performance driving community. Combining proven Motorsport design features, vehicle specific optimizations, and advanced flow-forming and forging technology, APEX engineers wheels that meet and exceed the diverse needs of weekend track warriors and competitive club racers.

APEX currently offers both flow formed and forged wheel fitments engineered specifically for the 86/BRZ chassis, all of which clear the factory Brembo brakes as well as a variety of aftermarket BBK's. We encourage 86DRIVE Challenge drivers to consult with an APEX Product Expert to learn more, and to view the 86/BRZ Wheel & Tire Fitment Guide available at apexraceparts.com

APEX360° Wheel Replacement Program

Let's face it: Whether you are a weekend warrior practicing at the track, or a club racer pushing the limit for a podium finish, mistakes happen and even the best of parts will be damaged along the way. We are not really a performance company if we sell wheels in a way that penalizes the pursuit of driving at the limit. For this reason, we stepped up and created a unique program to significantly reduce the costs of properly maintaining a set of wheels for racers by making replacements extremely affordable.

Eligible customers receive a 50% discount on replacement wheels. [Visit the APEX site](#) for terms & conditions on the replacement program racers are raving about!
